1 – RVS – 2/1 – 1NT FORCING – BETTER MINOR

Principles for Openings

- 1 and 2 seat openings promise 12 HCP (occasional exceptions with 11 HCP)
- 3 seat openings 1♥ and 1♠ may be made with shaded values as long as the suit is decent and has 1 ½ defensive tricks
- 4 seat opening only contemplated with at least 15 Cansino Count Points
- 1♥ and 1♠ promises 5 cards in the bid suit
- We open 1 NT with 15 – 17 HCP that may have an unstopped suit and with a weak 5 card major, balanced 5 – 3 – 3 – 2 to avoid rebid problems
 - Holding 5 – 5 in any two suits open the higher ranked
 - 6 – 4 – 6. With 6 – 4 bid second suit before re-bidding 6 card suit
 - We are willing to play game or slam with a 5 – 2 fit if we *know* that our side has +4 honours in that suit.
 - Any suit with 4 honours can be treated as it has an extra card
 - If you have an independent major headed by AKQJ insist on this as trump

Better Minor Openings

The **Better Minor** focuses on the Majors. It would be better named as “*Longer Minor*” since the *quality* of the minor is not relevant.

- With 4-4 in the minors, open 1♦
- With 3-3 in the minors open 1♣
- With 3-2 in the minors open the 3 card suit
- In response to 1♣ show a Major rather than diamonds unless having five diamonds, a four card major and enough strength to show the major on the next round. For that Responder will need an opening hand and 5-4.
- 1♣ – 1♦ denies a 4 card Major unless strong enough to show it on the next round. Opener will *not* rebid 1 Major unless holding 5 clubs and a 4 card Major. This convention is commonly called *Walsh*. However, after 1♣ – 1♥, opener will show a spade suit.
- An opening bid of 1♦ and a rebid of 2♣ is a minimum and can be 5-4 either way. Responder is expected to pass or correct with 3-2 in the minors.
- It follows that - When opening 1♣, diamonds will rarely be held unless opener is prepared to rebid them on the next round.
- A rebid of a minor usually promises 6 cards
- Openers 1♣ and rebid of 2♦ is a reverse.

Responses over 1♣ - The Walsh Diamond

- Immediately bid your Major with a minimum hand
- With GF values and long diamond suit but 1♦ and then the Major on your own
- With no 4 cards Major and balanced respond 1♦ with 6-8 HCP. Opener need not to bid 4-card Major (unless un-balanced hand) but can simply bid 1NT
- With no 4 cards Major and balanced respond 1NT with 8-10 HCP

Opener	Respon	Opener	Respon	Meaning
1♣	1♠			4-2-5-2 minimum or invitational – passing 1 diamond bidding the 4 cards Major
1♣	1♦			3-3-5-2 lacking 4 card Major – less then 8 HCP
1♣	1NT			3-3-5-2 lacking 4 card Major with good 8 – 10 HCP
1♣	1♦	1NT	2♣	Unbalanced minimum (say 2-1-5-5) sign-off even though Opener might hold 4-card Major(s)
1♣	1♦	1NT	2♦	Unbalanced minimum (say 2-3-6-2) Sign-off in 2 diamond is usually best in case suit lacking honor entries
1♣	1♦	1NT	Pass	Opener assumes Responder not holding 4-card Major and with balanced (4-3-2-4) minimum bid 1NT. With balanced minimum Responder passes or unbalanced rebids minor
1♣	1♦	1NT	2♠	With GF values (4-2-5-2) Responder „reverse“
1♣	1♦	1♥	1♠	Opener show unbalanced hand (say 2-4-2-5). 1 Spade by Responder is natural and GF (4+ diamonds – 4 spades)
1♣	1♦	1♠	2♠	Sign-off with minimum unbalanced hand and 3 spades

2 over 1 response over Major + 12 HCP Game-force

- The 2 over 1 response to an opening bid of 1♥ / 1♠ or 2♣ over 1♦ by an un-passed hand is 100% forcing to game.
- Does not apply if there is intervention – even X – over the opening bid.

- 2♣ or 2♦ usually 4 cards (rarely 2 clubs). With equal length in minors bid 2♣
- 2♥ promises at least 5 hearts

Opener's Rebids After a 2/1 Response

Does not apply if there is intervention – even X – over the opening bid.

Key Principles For Opener's Non-Jump bids

- Game force agreed – bid economically
- Openers rebid says nothing about the strength of his hand
- First priority to show an un-bid 4 card major. 2♠ is not a reverse situation

Opener Rebids His Major

- Usually show +6 cards, could be 5 lacking other bids, like stoppers for NT bid
- Lacking good bid could rebid 5 card suit with 3 of 5 honours
- Strive to rebid 5 card suit with +4 of 5 honours

Opener Raises Responder's Major

- Show a 3-card support.
- But with 3 small cards and an attractive alternative use the most economical

Opener Raises Responder's Minor

- Responder don't promise 5 card suit – could be 3 with honor
- Prefer rebid on 2 level and we usually don't want to play in 5♣ or 5♦
- With a soft balanced hand and stoppers in other suits bid 2NT
- With a singleton or void in bid minor a rebid of major with 3 to 5 honours is usually the best alternative
- Usually promise +4 cards ... but with 3 cards and +2 honors in minor and a hand full of quacks could be only alternative

Opener Shows A New Suit On 2 Level

- Show +4 cards. Could be very weak
- Does not deny 6 card major – we bid 6 – 4 – 6

Opener Shows A New Suit On 3 Level

- Not an economical bid – show good hand with 5 card suit or quality 4 card suit

Opener Rebids 2 NT – “Catch All” Bid – Lacking Good Alternatives

- Balanced minimum opening bid 12 – 14 HCP
- Balanced hand too strong to open 1 NT 18-19 HCP
- Unbalanced opening at any strength. Always includes a 4 card minor and can include a singleton in Responder's suit

Opener Rebids 3 NT

- Balanced 15 – 17 HCP

Examples on bidding sequences

- 1♥ / 2♣ / 2♥ - minimum opening, could be 5 lacking other bid
- 1♥ / 2♦ / 3♣ - not economical – extra values – minimum good 14 HCP
- 1♥ / 2♣ / 3♣ / 3♦ - stopper showing – seeking 3NT
- 1♥ / 2♣ / 4♣ - good support – extra values - 14+ HCP 5/5

Responder's Non-Jump Rebids

The theme is common sense more important than rules

- Support Opener's major with 3 trump
- If Opener rebids major – raise with doubleton honour
- Re-bid of the first suit with a good 6 card suit
- Be eager to bid 2NT when lacking fit, but with stoppers in un-bid suit(s)
- Raise Opener's second suit but think twice before continue over 3 NT
- Any 4 card suit can be bid, but consider
 - When opener has not bid 4 card major he denies
 - Opener could have 4 cards in un-bid minor
 - If three suits already bid, the forth suit do no promise a true suit

When in doubt about the correct trump suit, make the cheapest reasonable bid

1 NT Forcing Response to a Major

Made by an un-passed hand and no interference even double

- 5 – 12 HCP (both 5 is rare and 12 are very rare)
- Forcing for one round – do not promise a rebid
- Balanced or unbalanced distribution
- Denies 4 card support for opener's major
- 1NT response to 1♥ denies 4 spades
- Includes support for opener major with *very weak hand* or a 3 card limit raise
- With 3 cards in openers major and 8 to bad 10 HCP raise to 2 of major

Opener rebids after 1♠ - 1 NT		
2♣ 2♦	3+cards (except 2♣ over 1♥ page 9)	At most 17
2♥	4 hearts	At most 17
2♠	6 spades	At most 14
2 NT	Usually 5 – 3 – 3 – 2, but could be imperfect	17 – 18
3♣ 3♦	4 cards	18 + forcing
3♥	4 cards	18 + forcing
3♠	Strong 6 card suit 7 card suit	15 – 17 12 - 14
3 NT	5 – 3 – 3 – 2	18+
4♠	Strong 7 card suit Strong 8 card suit	14 + 12 +
After 1♥ – 1NT all concepts are identical but in addition		
2♥	6 hearts	At most 14

Responder's Rebids after Opener Rebids 2 of a minor		
Pass	No good bid	5 – 8
Preference to Openers Major	<ul style="list-style-type: none"> • Doubleton • With 3 cards 	Less than 11 5 – 7
2 NT	No fit – Stopper in other suits	11-ish (10 to bad 12)
Raising Openers Minor	5 card support (usually)	11-ish (10 to bad 12)
Jump raise Openers Major	3 card limit raise	11-ish (10 to bad 12)
New suit 2 level	6 card suit or good 5 card	5 – 9
New suit 3 level (non-jump)	6 card suit	9 – 11
New suit 3 level (jump)	6 card suit	11-ish (10 to bad 12)

Responder's Rebids after Openers' Reverse (17+ HCP) Bid - 1♥ - 1NT - 2♠		
Responder can hold a weak hand with support ♠ 54 - ♥ KQ8 - ♦ 7654 - ♣ 6532 or a weak hand with own long suit ♠ 54 - ♥ 8 - ♦ KQ76543 - ♣ 532		
Responder	Opener	
2 NT "Lebensohl"	3♣ Forced rebid	Responder will show his weak hand by drop-bid. If opener bid new suit after drop - bid show 19+ HCP
Any other bid by Responder except 2NT is Game Force		

1 NT is not Forcing

By a Passed Hand

- Logically Semi-forcing - Balanced or unbalanced distribution
- 5 – 11 HCP
- Might still be a very weak 3 card raise
- DO NOT respond 1 NT with a 3 card limit raise instead use 2♣ Reverse Dury

Partner Opens 1♥ RHO Overcalls 1♠

- Either a passed or unpassed hand
- 7 – 10 HCP
- Guarantees a Stopper in RHO spade suit
- No singleton or void – expect rarely in Partners suit
- Denies 3 card heart support

After RHO doubles

- Either a passed or unpassed hand
- 7 – 9 HCP / **Redouble with 10 HCP**
- No singleton or void – expect rarely in Partners suit
- Denies 3 card support

Over minor Opening

- 6 – 10 HCP
- No 4 card major
- No support in Opener's minor
- Can be unbalanced even with void.
- After 1♦ a response of 1NT (6 – 10 HCP) can include long club suit. If holding a 6+ card club suit and 11-ish points a jump shift to 3♣ is made

Finding Hearts after Spades – Check-back

When Opener bids Spades and responder NT it is difficult to find a 3 – 5 heart fit when Responder hold a 5 card ♥ suit and 11-ish HCP

Opener	Responder	Opener	
1♠	1 NT	2♣	Opener showing second suit
	2♥		NOT possible – show 6 cards and can be passed out
	2 NT		11-ish stoppers in other suits, could include 5 card ♥ suit
		3♥	If opener wish to pursue to game he bids 3♥ if holding 3 card heart suit. Responder sets contract in 4♥ or 3NT

Two Way Check-back (TWCB) after 1m – 1M – 1NT

The basic notion is that responder's rebid of 2♣ shows exactly invitational values and 2♦ game forcing values. Almost all other bids are natural and either a natural signoff or a natural game force. You lose the ability to play in a contract of 2♣, but in exchange you get many advantages on stronger hands. The TWBC applies in 1X – 1Y – 1NT situation including when opponent X. It does not apply after opponents bid a suit

- 2♣ shows exactly invitational values 11-ish (or a diamond signoff).
- 2♦ shows GF values.
- 2NT is natural 11-ish
- Jump Rebids are GF showing excellent suits with +2 honors and 6+cards
- Jump in Openings minor is GF with +5 cards and deny 5 card Major

Responder			
2 ♣			Shows invitational values. Relays to 2♦. Could be diamond sign-off
2 ♦			GF – Asking
2 M			To Play – Drop
2 other Major			If ♠ 4-4 Reverse GF, if ♥ 5-4 NF
2 NT			Natural 11-ish, invitational, NF, 4M
3m			5m-4M purish – GF (Purish means most of high cards in long suits)
3 other m			5om-5M purish – GF
3 other Major			If ♥ 5-5 purish – GF If ♠ 5-6 purish – GF
3 M			Excellent suit with min 6 cards and at least 2 honors – GF
Game			To Play
Responder	Opener	Responder	
2 ♣	2 ♦	2M	6+ cards, invitational, NF
		2 other M	If ♥ 5-4/5, invitational, NF If ♠ 4-5, invitational, NF
		2NT	Show 5M invitational, NF
		3 ♣	To play
		3 ♦	Natural, Invitational
		3M	6+ strong invite
		3 other M	If ♥ 5-5, strong invite, if ♠ 4-5, strong invite
		3NT	5 card M, Choice of game 4M or 3NT
Responder	Opener Bids in Priorities		
2 ♦	1. 4 of other Major		
	2. 3 of Responder's Major		
	3. Re-bid 6 card suit		
	4. Show 2-2-5-4 or 2-2-4-5		
	5. Re-bid 2NT		

Two Way Check-back (TWCB) after 1♥-1♠; 1 NT

1♣-1♦; 1 NT – Natural not TECB for minors

All sequences are what one might expect, but here are some examples:

1♥-1♠; 1 NT-2♦ (GF) -?

2♥ = good 5-card Heart suit

2♠ = two good Spades, say Q10 or better

2 NT = nothing special

3m = solid stopper, weak doubleton in other minor

Exceptions after 1♥ opening

1 NT Forcing can be Semi-forcing after 1♥

We open 1♥ with a minimum hand like KJ10 / J7542 / 432 / AK. Partner responds 1 NT denying suit. The only available bid for Opener is 2♦ which feels wrong. As Opener has no interest in game the right bid is Pass.

To avoid unlikely game with good shape, 11-ish HCP and 3 card support a Bergen raise of 3♣ must be considered instead of Semi-forcing 1 NT

1♥ - 1NT - 2♣ (can be 2 cards only)

Opener can hold a hand like ♠AQ96 ♥Q9765 ♦87 ♣AQ and bidding 2 spades would show a reverse +17 HCP so have to bid 2 Clubs.

Examples on Forcing versus Non-forcing sequences

W	N	E	S		Forcing	Non-forcing
-	1♠	2♥	3♦		GF	
-	1♥	1♠	2♦			NF
-	1♥	1NT	2♦			NF
-	1♥	X	2♦			NF
1♣	1♥	Pass	2♦			NF
1♣	1♥	1♠	2♦			NF
1♣	1♥	1NT	2♦			NF
1♥	1♠	2♣	2♦			NF
1♣	1♠	2♥	3♦			NF
1♠	1NT	2♥	3♦		GF – System on Lebensohl	
-	1♣	2♠	3♠		GF in ♣ or NT +14 HCP	
	1♥	3♦	4♦		GF in ♥ +14 HCP	

Interference and defense

Opponents interfere in our 2/1 situation

- Pass is always a forcing pass
- Double is always for penalty (expect better results than game)

RHO Overcalls (or Jump Overcalls)

- Double – takeout – willingness to compete – can be strong
- Bid – Distributional Hand – Not necessary strong.
- Double after Jump Overcall – takeout – Show “Cards” and strong hand
- Cue-bid Opponents suit – Game force

RHO make 1NT bid after Partners Opening bid

- If Partner bid minor - 2♣ is for Majors holding min 5-4)
- Double is for penalty.
- 2NT +11 HCP with fit
- Raise to 3 preemptive
- New suit with jump – void / doubleton – 4 cards fit - 11-ish HCP
- Other bids natural

NT in balancing 4th seat

After a 1 of a suit opening and 2 passes, the bid of 1NT is a balanced hand in the 11-14 HCP. Additionally the bid promise a stopper in the opened suit and deny a 5 card major suit, and tends to deny the ability to make a balancing takeout X. Vulnerability must be considered.

After 1♥ followed by 2 passes:

♠QJ2	♠AT76	♠J543
♥AJ3	♥K3	♥KJ9
♦K7542	♦QJ43	♦KJ43
♣JT	♣A76	♣QJ
Bid 1NT	Bid X	Bid 1NT

Although the 2nd hand above meets the HCP and stopper requirements for a balancing 1NT a takeout double is preferred as it will make partner aware of your spade suit holding.

To show a balanced hand in the 15-18 HCP range we should X first, then bid NT as the 2nd call.

Any response by Partner is Natural and Non-forcing – except
Cue bid of minor is Stayman and Cue bid of Major show other Major

No Trump in balancing Pass-out seat

When both opponents have limited their hands, the balancing 1NT bid can be used in the pass out seat. It shows a balanced hand with 10 – 13 HCP and promise stopper(s) or length in bid suits.

Interference over our 1NT

Their overcall promises both Majors

Most conventions' over 1NT have a way to show MAJORS. If the opponents do show majors (with some contraption that is below 2♥), I suggest:

2♥ = GF in ♣

2♠ = GF in ♦

2NT = Lebensohl - Relay to 3♣

3 of a minor = Natural, Invitational

3 of a MAJOR = GF, Shortness (0 or 1) in that MAJOR

3NT = To Play or minor game, Neither MAJOR stopped

Use the 2NT mechanism to show stoppers -- after the Relay to 3♣: 3 MAJOR shows only that major stopped; 3NT shows both MAJORS stopped. Relaying to 2NT also lets you sign-off in 3-minor (either pass the relay with ♣ or sign-off in 3♦ with ♦)

NOTE: Using this method, when they show MAJORS, you can show either minor (Weak, Invitational, or Forcing) and can show which MAJOR(s) are stopped, and also can show both minors and shortness in a major.

They overcall 2♣

Don't care what it shows (unless it is BOTH MAJORS) in which case you Double as a stolen bid "Stayman." Otherwise all other actions are as if they passed. Just ignore them. 2♦ is what it would have been without their interference. All bids (even 2NT) transfer are treated as if the Opponent Passed

They overcall 2♦ or higher

Again, it is best not to start asking questions and getting involved with which convention they use. Treat them all the same (unless 2♦ is specifically BOTH MAJORS). No matter what they bid, no matter what it means (other than MAJORS), here is the schedule:

BIDDING A SUIT (on the 2-level) = NATURAL, NF

BIDDING A SUIT (on the 3-level) = see below (Lebensohl) GF

BIDDING 2NT – Relay 3♣ (see below – Lebensohl)

BIDDING 3NT (Lebensohl) To Play or minor game, Neither MAJOR stopped

BIDDING A SUIT (on the 4-level) = all jumps to 4, are "Front of Card" -- Texas

2 Diamonds Multi - Definition of Weak 2 major **openings**

Similar considerations should be given to 2-suited openings

The perfect hand is a weak hand with a long, strong suit with little defense

- *The hand has no aces, and does not include any honors outside the long suit*
- *With strength in long, strong suit, you are not considering any other trump suit*
- *You prefer good distribution, which rules out a hand like 6 - 3 - 2 - 2*
- *Have 2 of 4 top honors or 4 of 6 top cards, meeting the singleton test*

The complete “Perfect Hand” will rarely occur, but most important is the “Quality”

The weak 2 opening can be made with

- Usually a 6 card suit
- 7 card suit – too weak to open on 3 level – usually in 3rd position
- Strong 5 card suit – 3 of 4 top honors
- With another weak 4 card major
- With a void

Quality, Position, Zone is more important than HCP

Beware of Flaws

- Lacks 2 of 3 top honors or 4 of 6 top cards
- Lacks texture
- A second suit which might make a good trump suit
- Several honors in other suits
- 6 – 3 – 2 – 2 distribution

In 1st and 2nd seat and/or the vulnerability is unfavorable you should pass hands with weak suits or multiple flaws

2 Suited Opening Bids – Mayor + minor

The Opening Bids of 2♥, 2♠ show a two-suited holding Major and minor

- The point count is 5 - 12 HCP
- The majority of the points are in the 2 suits
- In 1st or 2nd position the length is at least 5 – 5 and point count in the higher range
- In 3rd position and favourable vulnerability 4 – 5 and lower point count is possible
- In 4th position position the length is at least 5 – 5 and point count in the high range
- With a strong holding a normal opening bid on one level is often to prefer

Fourth Suit Forcing

After an initial 2/1 Game Forcing response, the 4th suit bid means

- Responder has a legitimate two-suited hand, or responder has no other good bid available The following bid will clarify the situation

- In a non 2/1 bidding situation the 4th suit forcing is semi-forcing on the 2 level with +11 HCP. On the three level it is always 1. Game Force / 2. Asking for 3 card Support of bid Major / 3. Asking for Stopper in bid suit

A 4th suit bid by a passed hand is forcing for one round

Game Try – Long Trial Suit (LSGT)

After we open 1♥ or 1♠ and partner raises to 2, what should we do? We should add at least a point to our original evaluation, because our 5+ card suit is now worth more. For example, ♠K10765 might not be worth much opposite a singleton, but knowing partner has support (picture ♠QJx), means we have lots of tricks in our suit. With a re-evaluated strength of less than 16, game is unlikely (facing at most 9 or a so-so 10). With about 16-18 in strength, we want to invite game. This is done by bidding a new suit (typically something like Axxx or Q10x -- where you want partner to evaluate his cards in that suit to help with marginal decisions). A re-raise (1♥-2♥-3♥) should just be a blocking bid--based on the LAW of Total Tricks--not invitational. With more than 18, opener just bids game (no need to give away extraneous information). What if the opponents interfere after the raise? After 1♠ (Pass) 2♠ (3♦), opener can bid 3♠ just to compete (not invitational). To invite game, he has to bid a new suit (in this case, the only try is 3♥--and says nothing about hearts). What if the opponents overcall in the suit one below opener's? For example: 1♥ (2♦) 2♥ (3♦) ?? In this case, 3♥ is needed as just competing for the part score (not inviting game). If opener wants to invite, the partnership has to use "Game-Try Doubles" -- whereby double of the suit 1-under is not penalty, but invites game. In all cases above, responder would bid game with about 9-10 and reject with about 6-7. In between hands require judgment

- Bid Kings up-the-line
- No King below trump suit return to trump suit, but can hold King in higher suit.

Roman Key Card Minorwood (minor suit agreed) D E L E T E

Using 4NT Blackwood when aiming to reach a slam often brings the bidding too high when realizing the no slam is possible.

1♥ (pass) 2♣ (pass) 3♣ agree to trump (pass) **4♣ RKCB for minor**

Reply	Meaning
4♦	1 or 4 KC
4♥	0 or 3 KC
4♠	2 KC
4NT	2 KC plus Queen
5♣	To play. Responder must pass as Opener realize that slam not possible

If responder bid 4NT after KC the responder his recommendation is to play in 4NT

If ♦ is the agreed trump the same principle will apply **4♦ RKCB for minor**

4♥	1 or 4 KC
4♠	0 or 3 KC
4NT	2 KC
5♣	2KC plus Queen
5♦	To play. Responder must pass as Opener realize that slam not possible

If responder bid 4NT after KC the responder his recommendation is to play in 4NT

King ask

If the partnership discovers that all Key Cards are accounted for, and the player must know which side Kings are held by partner, then the King-Ask is initiated. The King-Ask is **one level higher than the Minor trump suit**, which has been established as the trump suit as shown in the following auction

Opener	Responder	Meaning
1♣	2♣	Inverted minor
4♣	4♦	Minorwood / Showing 1 or 4 KC
5♦		King Ask
	5♥	1 King (trump king already shown
	5♠	0 or 3 Kings
§§	5NT	2 Kings

Queen Ask

To ask for the Queen of the established trump suit, then the partnership will bid *one step over the response* to the Keycard-Asking bid. For example:

4♣	4♦	Minorwood / Showing 1 or 4 KC
4♥		Queen ask
	4♠	Have Queen
	5♣	No Queen

Exclusion Key Card Blackwood

In Exclusion Keycard Blackwood there are only four Keycards. *The Ace of the void suit is not counted.* Therefore, only the other 3 Aces and the King of the trump suit count as the four Keycards. This conventional method is initiated:

1. After establishing a trump suit
2. By a jump bid HIGHER than game level in an unbid suit
3. Or is a suit bid by Opponents

The suit of the jump bid is then **excluded** by partner from any response bids. The responses to the Keycard Asking bid is accomplished in the following manner:

Partner opens 1♠ and you hold ♠K2 ♥AQJ62 ♦KQ842 ♣-. You respond 2♥ and partner raises 3♥. The answer is EKCB – after trump has been agreed – a new suit jump-bid beyond game – show a void and asks for key cards outside that suit.

Responses to 5♣	Meaning KC outside clubs	Final contract in example
5♦	Nil	5 Hearts
5♥	1 KC	5 Hearts
5♠	2KC	6 Hearts
5NT	3KC	7 Hearts

They double a suit bid	Pass	No control in suit double
	Re-double	1 st round control in suit doubled
	Bid	2 nd round control in suit doubled and control in suit bid

Control Bids

Ace or void is 1st round controls and K or singleton 2nd round controls

Following Rules apply

- A trump suit with adequate trump has been agreed
- The auction must be in a game force situation
- Bid 1st and 2nd round controls up-the-line
- If a suit is bypassed a control in that suit is denied
- If Opponents double a control bid and Partner pass – a re-double show 1st round control
- Avoid Blackwood when holding a void or singleton – use Control-bids (or Exclusion Blackwood)

Splinter Bids

A splinter bid is a jump bid in a new suit that makes no sense as a natural bid.

A Splinter bid is artificial and show

- A Singleton or void in the bid suit
- A good fit (combined 9 cards) in trump – 4+ cards in Major, 5+ cards in Minor
- Is forcing to game and suggest the possibility of slam

Recommendations

- Because the Splinter Bid is game-forcing, the amount of strength needed to splinter can be obtained by subtracting the number of points partner has promised from 26.
- Imperfect to splinter suit with high honor, but sometimes best choice
- With stronger hand Jacoby 2NT is preferred to keep the auction on lower level

Rule of 26 - If your partner makes a splinter bid and you can add up all your points outside the splinter suit and it is 26 HCP or more you should consider bidding a slam

Examples of Splinter Bids - double jump raise

Limit Raise or Better when Partner Overcalls

Opponents open and partner overcalls

West	East	West	North	East	South
♠ KJ7	♠ AQ642	-	1♦	1♠	pass
♥ KJ3	♥ Q8	?			
♦ 64	♦ 752				
♣ QJ852	♣ J106				

East has overcalled and does not promise an opening hand. In fact he could have anything from 6 to 16 points. With this actual East holding (a decent 1-level overcall) a 3♠ contract would be too high.

So if West cannot bid 3♠ then how does he show the values for a 3♠ raise should partner have a good overcall? The answer is the Limit Raise Cue Bid. Playing this convention West cue bids the opener's suit to show a sound raise to 3♠ (or better). So playing the Limit Raise Cue Bid we can stop at the two level if partner has a minimal overcall. And playing this treatment has additional advantages in that direct raises of partner's overcall are pre-emptive.

Note that the cue bid still applies if RHO bids over partner's overcall. So after -

West	North	East	South
-	1♦	1♠	2♥

a 2♠ bid by West would simply be competitive, 3♠ or 4♠ would be pre-emptive and 3♦ would show the limit raise or better. You would have to agree what 3♥ means, it's probably best to use it to show 4 card trump support but some players simply cue whichever suit they are stronger in and make a jump cue bid to show 4-card support..

The Jump Limit Raise Cue Bid

♠ KJ73
♥ KJ3
♦ 64
♣ Q985

This hand is very similar to previous hand but the 4th trump, however, is very Important, Therefore make a jump cue bid of bid 3♦ to show a sound raise to the three level or better. Note that this situation is not a Splinter.

This bid forces the partnership to the three level, but even if partner has a minimum there is a total of nine trumps and the Law of Total tricks applies.

Limit Raise when the Opponents Overcall

The limit raise cue-bid is used in the following situations

North Partner	East	South	Meaning
1♠	2♥	3♥	Limit raise or better in Spades
1♣	1♦	2♦	Limit raise or better in Clubs or Game Force stopper asking
1♣	2♠	3♠	Game Forcing +14 HCP in Clubs or NT
1♥	3♦	4♦	Game Forcing +14 HCP in Hearts

Raises without using the limit cue-bid

North Partner	East	South	Meaning
1♠	2♥	2♠	6 – 9 HCP 3 card support
1♠	2♥	3♠	4 – 8 HCP 4 card support
1♥	3♦	3♥	6 – 10 HCP
1♥	3♦	4♥	10 – 13 HCP or good shape

Western Cue Bid

Bidding the opponents suit on 3 level is not natural. Does it ask for a stopper (Western Cue bid) – the answer is yes but not always

West	North	East	South
1♣	Pass	1♥	1♠
3♣	Pass	3♠	

East's 3♠ is obviously not natural. Is it a spade stopper or asking for a spade stopper or a control bid?

It can be any of above – but West must assume that East is looking for a spade stopper and bid 3NT

Alert as Artificial and Forcing

Forcing or Non-forcing

The principle is that a Cue-bid by responder after a double is Game Forcing

Examples

North Partner	East	South Responder	West	
1♣ 1♠	1♥ Pass	Double 2♥	Pass	Game Force
1♣ 2♣	1♦ Pass	1♠ 2♦	Pass	Forcing
- 1♥	1♦ Pass	Double 2♦	Pass	Forcing – Strong - same as 2♣ opening
- 2♥	1♥	Double	Pass	Forcing +12 HCP – can be passed later if South has light double
- 2♥ 2NT	1♥ Pass	Double 2♠	Pass Pass	As above but non-forcing as minimum and lacking shape

Take-out Doubles

A take-out double usually show a hand worth opening – but does not promise it

A. When short (0-1) in opponents suit strive to take actions – like double below			
♠ A1084	♥ K1085	♦ K975	♣ 4
B. With a moderate hand that qualifies for a double or an overcall in a Major – prefer the overcall. Double followed by a bid show at “big” double.			
C. A take-out double of a Major does not guarantee 4 cards of other Major – opponents opens 1 ♠			
♠ 86	♥ KQ8	♦ AQ43	♣ A653
D. An off-shape double is asking for trouble. Even with a big hand don’t double if short in unbid major. Best bid on below holding is 2 ♦			
♠ 64	♥ AJ	♦ KQ862	♣ AK85
E. The Rank of RHO suit is very relevant when considering a double with boarder-line hand. An aggressive double of 1 ♣ is safer then of 1 ♠			
F. A bid of a new suit after a take-out double when the responder made a minimum response show +17 HCP and a good 5 card suit			
G. A bid of 1NT after take-out double when the responder made a minimum response show a balanced hand with 18-19 HCP			
H. A bid of 2NT after take-out double when the responder made a minimum response show a balanced hand with 20-22 HCP			

Responses after a take-out double

Pass	Penalty – Good holding in Opponents suit. Expecting better score then own likely Contract
Lowest suit bid	Weak hand. No good suit - Can be 3 card suit.
Suit bid	Maximum 7 HCP. Preference to Major – even with 5m and 4M
1 NT	7 – 10 HCP – Stopper in Opponents suit
Jump Bid	8 – 10 HCP. Show 4 cards. Preference to Major
Double Jump	8 – 10 HCP. Show +5 cards. Preference to Major
Cue bid	+12 HCP any holding or +10 HCP with +4 – 4 in Majors.
3M or 4M	Sufficient points or shape with +5 card Major for invitation or game
If Partner bid new suit or raise Partners Suit this show +16 HCP	

Other Doubles

Card Showing Doubles; are made on many actions where it is likely that our side has the balance of power. They are especially necessary after an enemy pre-empt. Because this doubles do not promise shortness in the opponent's suit partner is welcome to pass when he doesn't have a good alternative.

Responsive Doubles; are takeout doubles after the opponents bid and raise a suit, and partner bids or doubles. Because the opponents have found a fit partner is unlikely to leave to double in at the two or three level.

Support Doubles; are made by the opening bidder with a 3-card support after partner responds 1♥ or 1♠ after RHO overcalls at a low level. A Support Double says nothing about the strength of opener's hands, his distribution or the quality of his trump. If opponents double responders bid a re-double has the same meaning as a support double.

Balancing Doubles; are made when a pass would end the auction. Because it's "now or never" for you side they can be made with a weak hand, especially when you are short in opponents suit. Example below.
When partner makes a "trap-pass" a balancing double can result in a lucrative penalty.

♠ J953	♥ 4	♦ Q854	♣ A964
(1♥) Pass	Pass Double (Balancing)	(2♥)	Pass

Lead-Directing Doubles; is a double of opponent's artificial suit which suggests that partner lead the suit you doubled. It promises both length and strength.

Maximal Overcall Double; can be made by either side. They are usually made by the Opener after responder raises his major to the two level and your RHO bids the suit under it. In the example of 1♠ - (2♥) - 2♠ - (3♥) an overcall Double is a game try, while a bid of 3♠ is competing

Snapdragon double; is a competitive double after the first three players bid three different suits. A Snapdragon double by the fourth player is artificial and forcing. It advertises length in the lone unbid suit (5+ cards), at least 8 points but too little for a bid on the 2 level, and tolerance in Partners suit (at least 2 cards with 1 honor)

Negative doubles; description on following pages

Negative Doubles

- Made by Responder after partner opens and RHO overcalls (or jump-overcalls) in a suit.
- A negative double followed by a bid in a suit is weak (opposite to a take-out double)
- A negative double is valid up to 4 ♦ - thereafter it is treated as optional either negative or penalty promising 10 HCP and tolerance for partner's suit.

Strength required	Level
+6 HCP – Good shape	One
+8 HCP – No shape	One
+8 HCP	Two of a minor
+9 HCP	Two of a major
+10 HCP	Three or higher of a suit
Bidding Sequences	
1 ♣ - (1 ♦) – Double	Always promise 4 cards in both Majors
1m – (M) – Double	Always promise the other Major
1 ♦ - (2 ♣) – Double	Promise at least one Major
1 ♥ - (1 ♠) or 1 ♠ - (2 ♥) – Double	Promise at least one minor – denies support in Mayor

Use Aggressive actions when

- Short in Opponents suit and/or
- You know you have a fit and/or
- You have tolerance for openers suit and/or
- You have ideal distribution in unbid suits and/or
- You have prime cards (Aces and Kings)

Discretion is recommended with

- Length in the Opponent's suit and/or
- Shortness in Partner's suit and/or
- Flawed distribution in unbid suits and/or
- A hand with Quacks

Over Opponents take-out double (1 of a suit – double - ???) NEW 2
...there are many options

PASS doesn't say that he has (or don't) have support. It just shows a weak hand – usually about 0-6 HCP (but is could be more)

REDOUBLE is another option showing +10HCP and no support in Openers suit. With +2,5 defensive trick Opener is forced to pass leaving further actions (possible penalty double) to responder All further doubles are for penalty.

ONE LEVEL RESPONSES 1X "Double – 1Y

Usually he will have less than 10 HCP – but he could actually have more. With ♠ A K 8 6 5 ♥ 3 ♦ Q J 8 6 ♣ 6 5 bid 1♣ over the double. Rather start to describe your suits than to redouble and risk the auction getting too high. If instead you hold ♠ A Q 7 6 ♥ K Q ♦ J 10 9 8 ♣ 10 4 3 redouble and hope to penalize the opponents. 1-level suit bids are therefore FORCING. I want to be able to bid 1♣ on the hand above without the risk of being passed out.

A 1NT response after a double shows 6-9, balanced.

TWO LEVEL SUIT RESPONSES like 1 ♥ - Double - 2 ♣ or 1 ♠ - Double - 2 ♥

Recommend that a **2-level bid after a double is natural and NOT**

FORCING. Since you can redouble with 10 HCP, a 2-level response is assumed to be less than 10 HCP. For example, on the first auction, East could have

♠ 4 2 ♥ 4 2 ♦ 7 6 5 ♣ A Q J 9 8 7 and on the second

♠ 7 ♥ K Q 10 9 7 6 ♦ J 5 4 ♣ 9 8

JUMPS TO 2 LEVEL like 1♦ - Double - 2♠ are weak and 6+

JUMPS TO 3 LEVEL are Bergen

2NT / TRUSCOTT over a Major is used to show a limit raise with 3 cards support.
Opener bids 3 of Major to show minimum and a new suit is invitational Help suit.

SUMMARY OF MOST COMMON AGREEMENTS AFTER TAKEOUT DOUBLE:

PASS= WEAK (Usually)

REDOUBLE = 10+ HCP

ONE-LEVEL SUIT BIDS = Natural, Forcing one round (Usually less than 10, but could have more)

TWO-LEVEL SUIT BIDS (not jumps) = Natural, Not Forcing (Less than 10)

TWO-LEVEL JUMP BIDS are weak

THREE-LEVEL JUMP BIDS are Bergen

2NT limit bid or better – 3 card support

8 – LEADS AND SIGNALS

Alternative 1

Leads: Small is positive

Discards / Signals in trump contract: small is positive

Discards / Signals in NT contracts: Lavinthal

Count signals: when declarer plays, small / high is odd, high / low is even number of cards

Doubleton in suit Contracts: When Partner leads Ace or King – high - low

Doubleton When leading and or discarding – high – low

Alternative 2 (Fernando Piedra)

Leads:

- Both suit and NT contract; 3 – 5th (even with 3 small cards)
- Exception – when leading against NT in partners suit – with 3 cards lead highest, with +4 cards lead second highest
- Top of sequence

Discards / Signals

- In trump contract: small is encouraging
- In NT contracts: Lavinthal
- When Partner leads high card – the first discard is always attitude
- Count from second card played in the suit
- Honour shows sequence (or “wake-up”)

Count signals:

- Low / High is odd
- When enemy plays show count
- When Partner plays – if you are unable to beat dummy – show count

Doubleton

- When Partner leads or discarding – Low / High
- When leading and High / Low

Guide lines - Opening leads against trump contracts

1. When declarer pre-empts, try to make an aggressive lead – including an Ace
2. Analysing the enemy auction can allow to find the killing lead
3. If Partner had the chance to make a lead-directing double, lead a different suit
4. Lead an honor in Partners bid suit, when you have a sequence, or short suit or other good reason
5. If you raised Partners suit without honor in it and lead the suit – lead top of nothing
6. If the Opponents have the balance of power and a fit, you only hope may be to lead a strong short suit
7. If an Opponent jumps to slam without bidding Blackwood, he is likely to have a void.
8. Try to make an aggressive lead against a small slam – even leading an Ace
9. When you have a void, try to „wake-up“ Partner by intentionally making „wrong“ lead.
10. If Partner doubles their slam (called Lightner double) assume he has a void and try to „find“ him

When leading a trump?

1. When declarer has a two-suited hand, a trump lead is often best.
2. When the opponents bid 1 of a Major – 1NT – 2 of a minor – Pass. Lead a trump – responder is short in opener's major
3. With a strong holding in declarer's longest side suit – lead a trump
4. When the Opponents have limited strength and no outside source of tricks – lead a trump
5. When dummy is known to have a short suit – a trump lead is usually best
6. Never lead a trump just because you cannot find another lead

Guide lines - Opening leads against NT contracts

1. A sequence in NT requires 2 ½ consecutive cards QJ9, J108, 1097
2. When leading from strength in opponents suit, lead an honor only if you have a 4 card sequence
3. When Partner is known to be weak you should often NOT make a textbook lead
4. If declarer must be short in a suit, strive to lead it and „use up the honors from the short side first“
5. Unless Partner promises that suit, avoid leading 4 card suits which have the Ace but lack the King
6. With 4 cards headed by AK don't lead low
7. Leading declarers' 4 cards suit is sensible when you have length and strength in that suit
8. A NT response to 1 diamond usually includes 4+ clubs
9. Going passive is usually best after 2NT – 3NT,
10. Unless Partner bid that suit, it is usually not good to lead from a 4-card minor
11. After an artificial bid Partner pass is significant.
12. On many hands Partners' pass can provide valuable negative inferences
13. When you need to make an aggressive lead – a 3 card suit with 2 touching honors is attractive
14. Leading from strength thru dummy's length will often give up a trick by „finessing yourself“
15. Against 6NT when opponents has promised a long suit, lead aggressive
16. Partner's „out of the blue“ double shows a long Major – so lead your shortest Major.
17. If your side did not bid, Partners' penalty double demands a lead in dummies first bid suit.

Journalists' Leads

Leading a 9 or 10 show 0 or 2 higher cards. This is particular useful against NT contracts but also against suit contract or when leading a new suit after trick 1 in any contract
